

Te Korowai Pūtahi Manawa 2025

Through research excellence, we will strive towards equity in heart health for Māori to improve our well-being in Aotearoa New Zealand, and elsewhere.

This is the vision of the Pūtahi Manawa Māori Leadership Team's Manawa Ora Strategy. As we work towards this vision, we have funding available for community-led kaupapa Māori research projects on heart health,

We will fund projects between \$50,000 and \$250,000, for up to three years.

Pūtahi Manawa are committed to accessibility and equity for our hapori Māori (Māori communities). This means that we will prioritise community-centred and community-led kaupapa.

Projects must be Māori-led. Potential applicants will meet with Pūtahi Manawa to kōrero about their research plan and what support they might need. After this hui, invitations to submit a full application will be given. Full applications can be written in te reo Māori or English. Pūtahi Manawa can offer support with planning the research and completing the application.

Pūtahi Manawa is committed to open discussion, freedom of ideas and expression, and considerate airing of differences. We foster an environment that recognises and acknowledges every person and group, that fosters inclusion, dignity, understanding, and mutual respect (see www.putahimanawa.ac.nz for our vision and mission statements).
